

EuroPac International Value Fund (EPIVX)

INVESTMENT OBJECTIVES

The investment objective of the EuroPac International Value Fund (the "Fund") is to seek income and long-term capital appreciation. The Fund seeks to achieve this objective by selectively investing in undervalued foreign companies with minimal exposure to the US Dollar. These companies will primarily be located in Europe or the Pacific Rim.

INVESTMENT PROCESS HIGHLIGHTS

The Fund uses a top-down allocation approach to select what it views as the most fundamentally sound countries to invest in and a bottom-up approach to select high-quality, undervalued companies. Due to this approach, the Fund will typically be underweight the United Kingdom, Western Europe and Japan. The Fund's strategy seeks to diversify currency risk and takes a long-term investment view with low portfolio turnover.

The Fund adheres to a controlled investment process with Peter Schiff serving as the Investment Committee Chairman. The investment process includes three tiers: country selection, sector selection and security selection.

COUNTRY SELECTION

The Fund reviews and focuses on the countries it views to have the best fundamentals. Selection criteria includes an expected 1-2 year trade surplus, high real interest rates, low debt-GDP ratio, favorable real GDP growth estimates and stock market price-to-earnings valuations that are attractive relative to expected earnings growth.

GEOGRAPHIC ALLOCATION* AS OF 06/30/2018 (% OF TOTAL PORTFOLIO EQUITIES)

Canada	21.4%	Switzerland	5.0%
Britain	14.4%	Norway	4.4%
Brazil	9.7%	Netherlands	4.0%
United States	7.4%	New Zealand	3.9%
Australia	6.3%	Germany	3.8%

SECTOR SELECTION

The Fund reviews and selects sectors it believes will perform well against the macro economic backdrop and in the countries it focuses on. The Fund will focus on sectors in individual countries with favorable growth outlooks, well-positioned against anticipated secular shifts in supply/demand, plentiful resources and a favorable political and regulatory environment.

SECTOR DIVERSIFICATION** AS OF 06/30/2018 (% OF TOTAL PORTFOLIO EQUITIES)

Materials	28.4%	Energy	8.4%
Telecommunications	22.1%	Utilities	3.5%
Health Care	16.9%	Consumer Discretionary	4.0%
Consumer Staples	16.7%		

**Diversification does not protect against loss.

SECURITY SELECTION

The Fund focuses on four main characteristics to select individual securities within the countries and sectors identified by the top-down allocation approach:

ATTRACTIVE VALUATION – Rather than focus solely on cheap companies, the Fund looks for value using a number of quantitative and qualitative factors applied over a universe of approximately 3,000 individual securities.

FAVORABLE DIVIDEND YIELD – In addition to identifying fundamentally undervalued companies, the Fund also seeks out companies that pay or are likely to pay high, sustainable distributions relative to their peers.

FINANCIAL STRENGTH – The Fund selects companies with strong balance sheets to reduce capital risk and earnings volatility. The Fund also believes undervalued companies with strong balance sheets are most likely to have the ability to unlock value when attractive opportunities present themselves.

HIGH BUSINESS AND MANAGEMENT QUALITY – The Fund selects companies with strong management teams and a history of generating consistent returns and value for shareholders.

The Fund's portfolio will typically be comprised of 25 to 45 stocks and will be primarily spread across Asia, Europe and the Resource Countries (Australia, New Zealand and Canada) to diversify currency risk. The Fund's allocation between non-cyclical and cyclical industries is designed to mitigate portfolio volatility. The Fund typically invests in common stocks of companies located in Europe and the Pacific Rim, but may invest up to 20% of its assets in companies located outside of these areas such as in Brazil and India.

The gross and net expense ratios of the EuroPac International Value Fund A Share Class are 1.97% and 1.75%, respectively. The gross and net expense ratios of the EuroPac International Value Fund Institutional Share Class are 1.72% and 1.50%, respectively. A redemption fee of 2.00% may be imposed on redemptions of shares you have owned for 30 days or less.

The Fund's Advisor has contractually agreed to waive its fees and/or absorb expenses of the Fund to ensure that total annual fund operating expenses (excluding acquired fund fees and expenses) do not exceed 1.75% and 1.50% of the average daily net assets of the Class A and Class I shares of the Fund, respectively. This agreement is in effect until March 1, 2019, and it may be terminated before that date only by the Trust's Board of Trustees. The Fund's Advisor is permitted to seek reimbursement from the Fund, subject to limitations, for fees it waived and Fund expenses it paid for three years from the date of any such waiver or payment.

Carefully consider the risks and special considerations associated with investing in the Fund. You may lose money by investing in the Fund. Foreign investments also present risks due to currency fluctuations, economic and political factors, lower liquidity, government regulations, differences in securities regulations and accounting standards, possible changes in taxation, limited public information and other factors. The risks are magnified in emerging market countries, since these countries may have relatively unstable governments and less established markets and economies. More information about these risks and others can be found in the Fund's prospectus.
